# ***Zetto*** ***Silent Element*** ***System***

**FOR ALL COMMERCIAL DOMESTIC AND HOSPITALITY APPLICATIONS  
SERENE 'ZETTO' SILENT PANEL HEATERS ARE THE BEST CHOICE...**

**Serene *Zetto***  
**Panel Heaters**  
**that will**  
**forever enhance**  
**your living**  
**environment!**

Our range of beautiful Panel Heaters feature our new innovative 'ZETTO' Silent Element System designed with care and attention to detail to deliver warmth and comfort for many years.

This combination of product development, design and quality has underpinned the success of Serene living and our brand's continued growth.

We want our Serene panels to deliver for many years and our engineers have designed our new 'ZETTO' Silent Element System to improve both the performance and longevity by employing the latest technological developments.

Serene Silent 'ZETTO' Panels can be used anywhere including bathrooms. They are fully approved to the latest international and SAA standards and our production meets all ISO 9002 quality standards.

We believe in our Serene panels superior quality and we fully support and stand by them with a 10-year replacement warranty.

Advanced Cutting- Edge Dual Infrared + Radiation Convection panels designed specifically to deliver a controlled infrared 'soft' heat together with conventional radiant heat.

## QUALITY DESIGN

'Clima, a discreet elegant and sleek design featuring 'Zetto' Silent Element System. Select gentle, diffused heating that makes every room feel warm and cosy. 'Clima' delivers your desired temperature with spot-on precision and also saves on energy consumption.

Model S2030-31  
1100 or 2200 watts

## TWO HEATING SYSTEMS

Two heating systems working together...

Infrared radiation and conventional convection guarantee continuous, even emission of heat, creating a pleasant, embracing sensation, without draughts or unwanted circulating air.

## INFRARED HEAT

'Clima' Dual - Therm heat is a soft infrared together with powerful convection heating element that integrates this unique technology.

## TEMPERATURE ADJUSTMENT

The user-friendly keypad with LCD screen allows you to adjust the temperature with great precision, never straying from your desired comfort level. The temperature that you have set is always displayed on the backlit screen.

## STAND-BY MODE

'Clima' can automatically switch to stand-by mode if a window or outside door is accidentally left open - minimising consumption and optimising comfort.

## PRESENCE SENSOR

'Clima' is fitted with an infrared sensor that detects your presence and guarantees the desired temperature, lowering slightly the temperature when room is unoccupied.

'Clima's user-friendly keypad, allows you to adjust the temperature in any room with great precision. Checking what is 'the real temperature in the room' at any given moment.

A consumption display indicates the energy efficiency of the set temperature and the intuitive instant consumption indicator keeps everything under control to optimise- the energy saving.

**'Clima' technology incorporates everything you need to optimise your energy consumption.**

# INTIMO

These beautiful 'Intimo' Panel Heaters feature 'ZETTO' our new Silent Element System that will deliver silent warmth and comfort for many years.

## ADVANCED 'ECO' PROGRAMME

Reduces the wattage 50% by touching the 'eco' button, reducing the power consumption on those 'not so cold' days or when just a warm background heat is needed.

Model S2026-27  
1000 or 2000 watts

## THE BEST SOLUTION

'Intimo' are the ultimate affordable panel heaters for Commercial, Domestic and Hospitality environments and they can be programmed weeks ahead. They are also perfect for Offices, Retirement villages, etc... and are the best Home Heating solutions.

## PERFECT HEAT CONTROL

'Intimo's electronic fully programmable intuitive touch controls with LCD screen will deliver perfectly controlled heat to even the largest rooms and maintain a room temperature as high as 29 degrees if required.

## SPLASHPROOF

IP 23 rating makes these elegant heaters suitable for any room including bathrooms and laundries.

## ASTHMA SAFE

We have designed downward-pointing air outlets that greatly reduce dust build-up making safer for children and the elderly.

## FLEXIBLE CONTROL

The electronic control can be programmed to turn on and off up to four times a day no high or low heat setting or the money saving program.

## OUTSTANDING QUALITY

We designed, engineered and manufactured these Serene 'Intimo' Heating Panels in our own factory to ensure that the quality and features deliver unsurpassed warmth and comfort to your home.

## HAND FINISHED

Our white powder coated panels are hand finished to ensure a deeper long lasting lustrous finish.

The simple yet elegant design (updated for 2018) and the top mounted controls make 'Intimo' the perfect solution.

# PRIMO

Our most popular Panel Heater offers simple top mounted and ergonomically designed Manual Controls plus also our new 'Zetto' Silent Element System.

## RESEARCH & DEVELOPMENT

We strive for the highest standards in quality, design and engineering when designing, developing and tooling the 'Zetto' Silent Element System which employs the latest cutting-edge materials.

## DESIGNED TO LAST

'Primo' and 'Intimo' ranges are uniquely our own products manufactured in our own factory. Every Serene product is engineered to last and can be depended on to deliver efficient warmth and comfort in your home or business for many years.

## EASY INSTALLATION

Fast and easy to install using our simple and strong clip on wall bracket.

## PERFECT FOR LARGE OR SMALL ROOMS

There is a 'Primo' model to suit every room size and our advanced heat control will maintain a temperature of up to 29 degrees in even large rooms\*. We are forever looking to improve Serene products and have made important yet subtle design improvements for 2018 that enhance both performance and outlook.

## NEW FOR 2018

We are forever looking to improve Serene products and have made important yet subtle design improvements for 2018 that enhance both performance and outlook.

Model S2024-25  
1000 or 2000 watts

'Primo' is designed to efficiently heat both large and small spaces that needs consistent controlled heating.

## QUIET, REFINED, EFFICIENT AND STRONGLY CONSTRUCTED

Our new efficient and quiet tangential fan delivers greater air flow and the adjustable thermostat always ensures the perfect temperature in large or small spaces. This beautiful and elegant heater will enhance any décor be it traditional or cutting-edge minimalist.

### EFFICIENT

For all Commercial, Domestic and Hospitality applications the beautiful and super efficient 'Sciolto' is the best choice...

### STRONG ALL METAL CONSTRUCTION

Engineered to deliver a lifetime of quiet comfort even in heavy use commercial areas.

### QUALITY

Designed and precision engineered in our own factory from high quality, advanced long-lasting materials.

### VERSATILE

IP 23 construction with automatic safety cut-out allows 'Sciolto' to be installed in all indoor environments – including bathrooms, changing rooms and laundries.

### SKOPE REPLACEMENT

Fits into most Skope recessed heater cavities allowing easy replacement and installation.

### POWERFUL

The powerful 2400-watt output will quickly warm even the largest rooms and meeting spaces and also features our automatic safety cut-out system.

### ELEGANT DESIGN

The refined and stylish design seamlessly blends into any room and instantly provides superior warmth and comfort at the push of a button.

### CLEVER

Pop-out controls that retract to give a flush and elegant outlook while seamlessly controlling the room temperature.

Model S2059  
2400 or 1200 watts

**'Sciolto' is the perfect choice when instant even fan forced heat is required.**

# OPTIMA

This advanced electronic surface mounted heater uses our 6000 rpm brushless motor to deliver unmatched performance and reliability.

## OUR BEST FAN HEATER

We have created 'Optima' a new and better fan forced surface mount 'Electronic' Space Heater with Tangential Fan to deliver greater heat output with significantly less noise than other wall mounted fan heaters.

S2055  
2400 watts /10 heats and speeds

## SIMPLE TOUCH PANEL CONTROL SYSTEM

Makes it simple to programme the three hour countdown timer and set the integrated electronic thermostat control and heat combination.

## POWERFUL

This very powerful space heater with a choice of 10 speeds and heat settings is ideal for Hotels, Offices, Libraries, Doctor's waiting rooms or in fact anywhere that needs powerful yet controlled heating at the touch of a button.

## DESIGNED & MANUFACTURED BY SERENE

These Serene space heaters are designed for a lifetime of constant use and manufactured in our own factory from high quality, long lasting materials.

## VERSATILE

Simply select any combination of the 10 heat and airflow settings or the 5 powerful cold settings or 'Frost Watch' – total comfort for all seasons.

## SUPER SAFE

All metal construction from long lasting high quality materials plus the many additional safety features makes 'Optima' the ultimate choice.

## ADVANCED

'Optima' with its powerful Brushless Motor, quiet Tangential Fan and advanced electronic control system will heat (or cool) both large and small spaces to the perfect temperature. 'Probably the worlds' most advanced wall mounted fan heater'.

**For all Commercial, Domestic and Hospitality applications Serene Wall Mounted Fan Heaters are the best choice for controlled instant heat.**
